5/1/23

- 3 people starting CFR class in Genesee county starting 5/8 Monday and Wednesday nights through the middle of June
- Monroe, Orleans, And Genesee Counties all using ACADIS for class sign up but I will still need to complete a training authorization letter prior to class start
- Attendance at drills have been poor still, with the PSTF planned in June we need to get more people showing up for drills so that we can plan more drills like this in the future. My hope is to return to the PSTF in September/ October timeframe but we will need to prove it is deserved

Assistant Chiefs Report

Date: 5/1/23

Apparatus Maintenance: Per Mike Henry's report

Equipment:

Hoses/nozzles-

The tan colored 2.5" hose can be put on the crosslays of the pumpers and 230. The white 2.5" will be used for blitzfires and the rear beds.

Nozzles: Still in the works.

Hose testing-

Mike Henry has received the contract for hose testing from First Due Services LLC for 2023 and has scheduled the hose testing for 7/20/23.

Turnout gear-

We are putting together a new order for turnout gear. There are some items that need to be restocked in the quartermaster's available stock. Reach out if you have any gear needs.

Thermal Imaging Cameras-

Many of our TICs are over 10 years old and have been having trouble charging and keeping a charge. We are going to order 3 TICs to replace the oldest ones.

232 Hurst E-tool Combi-tool

A new combi tool is being purchased for 232 so all pumpers will have a combi tool Etool.

232 Battery Chainsaw-

A Dewalt 60v 16"bar batter chainsaw is going to be purchased for 232 as a trial as a vent saw.

Personnel:

The Recruitment and Retention committee is meeting on the second Monday each month.

Chain of command crews-

The list of chain of command crews has been updated and posted/emailed. The purpose of these crews is for communication purposes and for crews to work together to support new members.

Personnel Improvement Initiatives

Standby Firefighter Program-

As a way to get more trained FFs in a short time frame an idea has been discussed to reach out to other fire departments and see if we could recruit their members to take stand-by shifts and improve our numbers? The idea would be that they would not be responding from home, but they would meet the expectations with time spent here on stand-by vs numbers of calls. They would not be attending BVFA meetings, but would be welcome/encouraged to come to drills. They would need to meet all requirements and be in good standing in their home departments as well including OSHA mandatories. The next step to move forward with this idea would be to build an SOP along with Rules/Regs with BVFA to ensure that we and the future FFs in the program are protected.

Joint Daytime Pumper Program-

Similar to the program that Orleans Co has with the East Battalion Engine 372 we want to reach out to neighboring departments to explore the possibility of setting up a program to cover both districts during peak hours. The next steps will be to set up SOP/SOGs and reach out to other departments to see if there is interest in it.

Bunk-In/Live-In Program:

Joshua Hennemann, the Monroe Co Fire/Rescue Program Coordinator, reached out to Chief Medina about the Brighton FD Bunk-In program with MCC. He is offering to help us start up a similar program. He will be coming May 3rd to take a look at our facilities and discuss options.
